

## Foundation Donation Creates Hank and Corinne Greenberg Park

by Bill Nutt  
Chairman of the Board of Trustees  
Ocean Reef Community Foundation

The Ocean Reef Community Foundation is very pleased to announce the receipt of a tremendous donation of two large residential lots to be designated as a community park. Long-time Equity Members **Hank and Corinne Greenberg** have donated the bay-front property, totaling nearly two acres of real estate, to the Foundation for the purpose of creating a park to provide open views of Card Sound for Ocean Reef residents. The donation of these two lots at the end of Country Club Road, adjacent to Cannon Point, represents the single largest donation ever received by the Foundation.

When making their donation, Mr. and Mrs. Greenberg asked the Foundation to use these lots to preserve open space in perpetuity through the creation of a park available to the Ocean Reef community. In turn, the Foundation has agreed with ORCA to landscape and administer the new Hank and Corinne Greenberg Park. **Marshall Wishnack**, Chairman of the ORCA Board of Directors, said "ORCA looks forward to creating and executing a landscape plan which preserves this unique asset. It will be the only place with vistas and sunset views accessible to the community." The Foundation and ORCA also met with the neighbors at Cannon Point to reflect their

Hank and Corinne Greenberg have donated two bayfront lots to The Foundation.

views in the planning process. To date, the preliminary plans contemplate the Park being open during daylight hours with walking paths, benches, and broad, open spaces for activities such as fly-casting.

Tom Davidson, Sr., Vice President of the Foundation, who was instrumental in coordinating the logistics of the donation noted, "As Ocean Reef has developed over the past fifty years, we have less and less open space and, particularly space with expansive views of our surrounding waters. The Greenberg's generous donation is special not just because of its size but in its creation of such open space."

The donation closed on December 15, 2017 and was guided by

Russ Post on behalf of the Greenbergs. Russ added, "In light of the Greenberg's generosity, we have also donated our real estate commission to the Foundation."

Working through the details of this donation has the collateral benefit of providing a template for similar donations. A tax-deductible contribution of real estate, such as these residential lots for the benefit of the community, is a great way to minimize compaction as well as simply preserving views that will enhance the value of surrounding residences.

The Foundation would like to recognize and again thank Mr. and Mrs. Greenberg for their generosity and support of the Ocean Reef community. This is sure to be an amenity treasured by many for generations to come.
