# Ocean Reef Community Foundation Gets Unexpected Gift This Christmas

John and Mary Lee, Alan Goldstein and Becky and Bill Dickinson.

The Ocean Reef Community Foundation is pleased to announce “an extraordinary and generous gift on the part of Mary Lee Presents Ocean Reef Properties that will benefit Ocean Reef charities and the entire Ocean Reef Community for years to come,” according to Chairman **Alan Goldstein**.

Last week the leadership of Mary Lee Presents Ocean Reef Properties committed to donate a percentage of each real estate transaction to charity through the Ocean Reef Community Foundation. On Monday, December 24, the organization had already presented the first resulting donation to the Foundation (pictured).

The impetus for the unprec-

edented donation commitment came back in July when **Mary & John Lee** met with **Bill Dickinson** to acquire the Prudential Real Estate business. As new owners, the Lees immediately began the endeavor with Managing Broker Dickinson with thoughts of how to better serve the Ocean Reef Community.

“One significant item on the table,” says President John Lee, “was the franchise fee that had been paid to Prudential. We began thinking about donating this fee to the Ocean Reef Community Foundation then.”

“We believe the Ocean Reef Club is the finest private club in the country, says **Mary Lee**, also an agent. At 67 years young and with four generations of families loving the Club, Ocean Reef is truly unparalleled. We are committed to this Club and to this special community.”

She continues, “We have been delighted to be a Preferred Partner with the Ocean Reef Community Foundation and a Platinum Sponsor of the All Charities Auction Weekend from the beginning. Building on this longtime relationship

with this outstanding organization was the perfect choice to benefit the whole community.”

“But,” adds John Lee, “We agreed to wait until a time this would become significant. After reaching the one hundred million dollar mark in listings we decided it was time to meet with the Foundation and make it official.

The decision on the charities ultimately receiving the funds through this effort will be made by the Ocean Reef member who has listed their home and, in many cases, also the purchaser. The funds will come from Mary Lee Presents Ocean Reef Properties and be delivered to the Ocean Reef Community Foundation after each closing.

Foundation President **Steve Markel** remarked, “We believe this program will have a major impact over time and be very meaningful to the Foundation, local charities and the community. We appreciate the Lees’ generosity and are grateful that they have chosen to continue to partner with the Foundation in their philanthropy and dedication to serving our community.”
